# PREFACE

---

WALKER'S MANUAL OF CALIFORNIA SECURITIES AND DIRECTORY OF DIRECTORS for 1916 (the eighth annual number) covers all the subjects presented in previous years in the same accurate and comprehensive style as heretofore.

The growing interest in Irrigation bonds has led to the addition of a section devoted to these securities, the sale of which is doing much to aid the development of California.

The increased protection afforded investors in California securities through the State control over new corporate financing is of such great importance that short articles are presented on this subject explaining the working of the Investment Companies Act and the State Railroad Commission. "The 'Blue Sky' Law of California" by the Hon. H. L. Carnahan, Commissioner of Corporations, and "The Regulation of Public Utilities in California" by Paul A. Sinsheimer, Stock and Bond Expert of the Railroad Commission of California, explain what is being done by the State of California in this direction. Both these gentlemen are authorities on this subject, the readers of the Manual and the undersigned are indebted to them for their courtesy in presenting the subject in such a clear and concise manner.

For the assistance and co-operation of the officers of the various corporations and to others interested in Californian securities, I wish to express my thanks and appreciation.

H. D. WALKER.

To the Investing Public:

In 1894 our house, foreseeing the demand for capital necessary to develop the natural resources and wealth of the Far West, opened a San Francisco Office, and became the first bond house established on the Pacific Coast.

During the past twenty-two years we have purchased, alone and with our associates,

\$108,000,000 CALIFORNIA PUBLIC UTILITY AND  
CORPORATION BONDS

and

\$70,000,000 CALIFORNIA STATE, COUNTY AND  
MUNICIPAL BONDS.

Approximately \$178,000,000 obtained from the sale of these securities, has been used in the up-building and improvement of practically every section of the State; through the acquisition and development of water systems, construction of highways, school houses, etc., and through the building and extension of street railway systems, interurban railways and gas and electric companies, including among the last mentioned some of the largest hydro-electric plants in the West.

Our organization, extending from Boston to New York in the East and to San Francisco and Los Angeles in the West, and reaching practically every section of the country, possesses exceptional facilities for the investigation, appraisal, purchase and distribution of investment bonds. We solicit correspondence with respect to any branch of investment.

Faithfully yours,

UNIV. OF  
CALIFORNIA

# CALIFORNIA IRRIGATION DISTRICT BONDS

Issued under the "Wright Act of 1887," the "Bridgford Act of 1897," and subsequent amendments. Issuance approved by the State Irrigation District Bond Commission consisting of the Attorney General, the State Engineer and the Superintendent of Banks. In reporting on a District this Commission approves the organization of the District, estimates the market value of the land and irrigation system, the sufficiency of the water rights and general feasibility of the project.

When a District has been approved and the bonds validated, such action is evidenced by the following endorsement which may be affixed to each bond:

Sacramento, Cal. (insert date).

I, ....., controller of the State of California, hereby certify that the within bond No. .... of issue No. .... of the ..... irrigation district, issued ..... (insert date), is, in accordance with an act of the legislature of California approved ....., a legal investment for all trust funds and for the funds of all insurance companies, banks, both commercial and savings, trust companies, the State school funds and any funds which may be invested in county, municipal or school district bonds, and it may be deposited as security for the performance of any act whenever the bonds of any county, city, city and county, or school district may be so deposited, it being entitled to such privileges by virtue of an examination by the State engineer, the attorney general and the superintendent of banks of the State of California in pursuance of said act. The within bond may also, according to the Constitution of the State of California, be used as security for the deposit of public money in banks in said State.

**FEDERAL RESERVE BANK.**

The System of Federal Reserve Banks was established by an Act of Congress, approved Dec. 23, 1913, entitled the "Federal Reserve Act."

In accordance with its purpose "to provide for the establishment of Federal Reserve Banks, to furnish an elastic currency, to afford means of rediscounting commercial paper, to establish a more effective supervision of banking in the United States, and for other purposes," the "Continental United States, excluding Alaska" has been divided into twelve districts and a "Federal Reserve Bank" organized in each of the Federal Reserve cities of these districts. The designated Federal Reserve cities are Boston, New York, Philadelphia, Cleveland, Richmond, Atlanta, Chicago, St. Louis, Minneapolis, Kansas City, Dallas and San Francisco. The banks opened for business Nov. 16, 1914.

The system is under the supervision of the Federal Reserve Board at present consisting of C. S. Hamlin, Governor; F. A. Delano, Vice-Governor; P. M. Warburg, W. P. G. Harding, A. C. Miller and ex-officio W. G. McAdoo, Secretary of the Treasury, Chairman; John Skelton Williams, Comptroller of the Currency.

The District of the Federal Reserve Bank of San Francisco comprises the States of Washington, Oregon, California, Idaho, Nevada, Utah and part of Arizona, and its capital is made up of subscriptions by all the National Banks in its district of 6% of the paid-up and unimpaired capital and surplus of each bank, of which amount one-half is paid up and one-half subject to call.

**Officers**—Archibald Kains, Governor; Jno. U. Calkins, Acting Deputy Governor; John Perrin, Chairman and Federal Reserve Agent; Walton N. Moore, Deputy Chairman and Deputy Federal Reserve Agent.

## THE REGULATION OF PUBLIC UTILITIES IN CALIFORNIA.

By Paul A. Sinsheimer, Stock and Bond Expert  
Railroad Commission of California.

California, through the greater part of its history, has been dedicated to the proposition of public utility regulation.

This regulation was for many years largely a matter of local concern. Authority was reposed in the city and county. County regulation was spasmodic and largely negligible. Municipal regulation was vigorous in some places, but not wholly effective. It traveled a well beaten road from the local council to the courts. Historic controversies developed and still remain unsettled. Rate issues from the larger cities of the State have been in litigation for ten years or more. The costs have at times exceeded the amount in dispute.

The State Railroad Commission was given its present authority that it might take over with plenary power all regulation which had heretofore been lodged in city and county.

The jurisdiction now reposed in the Commission includes the supervision of the rates, service and finances of the railroads, car companies, street railways, interurban railways; gas, electric, telephone, telegraph, water, express, pipe line and steamship companies; warehousemen and wharfingers.

During the four years of procedure under the Public Utilities Act, the Commission has adopted certain principles designed for the mutual interest of the public utilities and the patrons they serve. The policy has differed from the national treatment of similar issues. In California supervision has been substituted for prosecution and regulation has displaced dissolution.

Just as clearly as it would be an injustice that public utility corporations should charge all that traffic would bear, so it would be inequitable to limit these public utilities in their charges without safeguarding their investments and profits. The buying public is entitled to its transportation, and its gas and telephone service at the lowest reasonable price. It may fairly assert its right to a high-class railway service, a good quality of illuminating gas, and quick telephone communication. But it must pay the price measured by the excellence of the service given. A starved railway, an anaemic gas company, and a financially failing telephone company can not give the high quality of service which the public demands. Only a utility of financial strength and ample profits can do so. The more strongly fortified financially, the better can a public service corporation afford to give a favorable rate.

For these reasons the California Commission has acted upon the belief that in the ultimate consideration, the interest of the public utility investor and the public utility patron must follow parallel lines.

It has been clear also in the understanding of the Commission that there can be no fixed and definite standard of return for public utilities. The rule must always be that the rates shall be high enough so as to yield to the utility sufficient profit to attract new money into the business. If regulation does not do this, it might as well confess its failure.

It is necessary to go further in safeguarding the public utility patron and investor. A remunerative return may be made impossible through ruthless competition. Accordingly, the Commission has adopted as a well-known principle its policy of protecting against competition in its given field every public utility which renders complete and adequate service at rates as reasonable as could be legitimately offered by a prospective intervenor.

In its work during the past year the California Railroad Commission has been concerned very largely with matters relating to valuation and the issue of stocks and bonds.

In its findings of value the Commission, almost uniformly, has taken as a minimum the actual investment in any given public utility property. There is always open a court appeal from any unfair finding of value or from any determination of rates.

The California Commission has made findings in value in an amount of approximately \$250,000,000 and in only one case was an appeal taken to the courts. This case involved some \$2,000,000 and the Commission's figure was upheld by the higher authority. There has been an almost unanimous acceptance of all of the findings of value which the Commission has made. The appeals from rate allowances have been so few as to be almost without importance. Here also there has been almost a unanimous acceptance of Commission findings.

The principle of public utility regulation is older than modern history. The present problem is to extend its usefulness wholeheartedly in broad spirit to the patron served and to the investor who makes the service possible. The rate schedules have been attuned to the new conditions of State progress. With the rate level established, the incentive then remains for the utility to better the standards set by the Commission so that it may reap its reward in increased profits. These operating standards are regularly fixed by the Commission so as to leave open to the corporation the door of greater profits to be entered through more economical and efficient processes of operation.

Today in California, the public utilities of the State, excluding the electric and short line railways, are, with rare exceptions, reaping greater profits than they have hitherto known. The electric and short line railways are adversely affected by automobile competition and have offered as a cure for their present difficulties, not a curtailment or cessation of regulation, but more regulation.

The investor's attitude toward California utilities is reflected in the sale of something in excess of \$250,000,000 of stocks and bonds. This money has gone into enterprises of every variety under the scope of the Commission's jurisdiction. It has included not only the expansion and development of the older corporations, embracing 800 miles of new railway and 100,000 additional horsepower of electric energy, but has involved some ten new railway undertakings; fifteen new gas and electric companies; nine new telephone companies; a new \$5,000,000 oil pipe line; independent ferry companies; and a score or more of water companies and lesser utilities.

The investor's viewpoint is reflected further in the augmented prices which the stocks and bonds of these public utility companies, with some few exceptions, now command. The attitude of the investor under the regulation which has prevailed in California, has been such as to enable every existing corporation to carry forward on favorable terms its full program of construction; has enabled a large number of new corporations to enter and explore fields hitherto undeveloped; and has induced financial interests of national scope to place their funds in California utilities.

This condition can arise and continue only from a clear perception that it is an equal duty of public authority to safeguard and protect the investor as well as the patron in public utility service.

## THE "BLUE SKY" LAW OF CALIFORNIA.

By Hon. H. L. Carnahan,  
Commissioner of Corporations

The necessity of supervision or regulation of the issue of corporate securities attempted under the so-called Blue Sky laws is fairly demonstrated by the demand of the people themselves, which has been so general and insistent that no less than seventeen States have adopted and endeavored to put such legislation into operation. And the duty of the State to afford some measure of protection to its citizens from fraudulent schemes that had become so common as to be a public shame is generally recognized.

If the manifest evils of wildcat promotion and crooked operation of corporate enterprises which have victimized our citizens and inspired such a distrust in the public mind as to injure corporations endeavoring to do a legitimate business and honestly finance their projects, can be prevented or remedied or substantially ameliorated, the effort to do so is at least praiseworthy. If the means employed are not unduly onerous upon corporations or the business conducted by them, so that the detriment caused through the interference of the State is but a fraction of the mischief to which both they and the State are otherwise subject, the use of such means is also justified as a matter of good business policy.

The first year's administration of the Investment Companies Act in California has demonstrated not only that fraud in corporate enterprises can be checked but also that corporate projects generally, because of their initial examination and subsequent supervision by the State, are more likely to succeed. Furthermore it has been shown that these things can be accomplished at a nominal cost and burden to the State and to the companies involved.

Some idea of the scope of the activities of the State Corporation Department, which administers the California Blue Sky law may be gathered from a consideration of the fact that there are more than 20,000 corporations in California subject to its supervision in the issue of their stocks, bonds and other securities. In the first four months of the present year more than 500 corporations were permitted to issue securities of the aggregate par value of more than \$70,000,000.

The purpose of the State in the administration of this law that so closely affects the entire business fabric of the commonwealth has been:

1st. To adopt as a standard the course of legitimate, honest and efficient corporate business as it has hitherto been conducted in the State, and to avoid radical and unnecessary changes;

2nd. To give authority promptly to all ventures honestly promoted or operated, and in doing this to make the burden of compliance with the act as little onerous as possible;

3rd. To make the State Corporation Department a bureau for the information of California citizens as to the character of any corporate enterprise in which they may be interested; and,

Finally, by the use of every power that the legislature has put into its hands, to persuade the scoundrels who would swindle that their kind of business is no longer profitable—at least in California.

The State has lost corporate enterprises through the operation of this law, from which other States, without like statutes, are now suffering. Some of them have been kicked out. Most of them retreated voluntarily without waiting for more drastic measures. On the other hand California has gained investments which will add to the prosperity and development of the State and which

have come and organized as California corporations for the protection afforded their business reputation and standing by so doing. Stocks and bonds of California corporations which have been issued and sold under the supervision of the State have almost uniformly found a more ready market than other securities, not only in California but elsewhere.

In authorizing the issue of securities the State does not, and manifestly cannot, determine for the investor whether the project will certainly succeed; but the State does insist that the prospective investor shall be fairly and accurately informed of the character of his investment, that the money which he invests shall actually be put to work for him and not diverted into the pockets of the promoter and that an honest effort shall be made to develop the project along practical business lines.

As the character of any security in the eyes of the general public approaches an investment to that extent the Department endeavors to see that it is an investment. For if a corporation desires a reputation for value and conservative stability in its stock, it should be required to make its stock valuable and stable.

In the case of notes, bonds and other like securities which constitute a promise to pay, a showing is required that there is a reasonable present security behind the proposed issue and that there is a reasonable probability that the interest as it accrues and the principle as it matures, will be paid.

With a view to informing the public as to the nature of stocks being offered for general sale, the condition of the company, and the nature and hazards of the business are frequently recited on the face of the permit issued, a copy of which must be exhibited and delivered to each prospective investor.

Commissions on the sale of stocks which not infrequently ran to from 40 to 60 per cent or more of the gross selling price, have been limited to reasonable percentages approximating actual selling cost.

Through its control over the agents of corporations selling securities the Department is gradually weeding out the crooked salesmen, who, with misrepresentation of their projects and with promises made not to be kept, raise false hopes of profit, not alone in the credulous, but frequently deceive the investor of average prudence and caution.

Through its control over advertising matter affecting securities under its jurisdiction, fraudulent and deceptive promises of tremendous returns, made to trap the unwary, have been eliminated from the public prints.

More than 21,000,000 shares of stock in hundreds of enterprises, representing par values of more than \$30,000,000 which have been issued for promotion services or in exchange for undeveloped patents and mining claims and other unproven and intangible values, have been tied up in escrow and withheld from resale. These shares will be released as the companies are financed and the projects are developed to a point where the shares will have a substantial value. But they may not be sold in competition with the company's effort to finance itself and the promoter may not profit from them until he has made good for the investors he has induced to join him.

The measures adopted for the prevention of fraud are as numerous as the various schemes devised to beat the law and could be discussed indefinitely.

The State is accomplishing the purposes of the Act without imposing onerous burdens on clean business. The better business men are approving of the drawing of the line between them and crooked business, realizing that their business will be the better for it. California wants corporate business and corporations to develop her resources and build up her industries. As it becomes known that the risk of unfairness and dishonesty is at least a little less than in the past, money that has been hoarded away or has been working in a small way for individuals is being, and in the future it will be, put in increased amounts to work in a large way through corporate action to the advantage of us all.

## NATOMAS COMPANY OF CALIFORNIA.

San Francisco, Cal.

Organized under the laws of California Dec. 24, 1914, to take over all the properties of Natomas Consolidated of California.

Early in 1914, the Natomas Consolidated of California having become financially embarrassed, a reorganization committee consisting of Frank B. Anderson, Percy T. Morgan, Herbert Fleishhacker, Geo. E. Webber and Curtis H. Lindley was formed to plan for its reorganization.

On May 15, 1914, an agreement was entered into between the Committee and the various parties in interest. The bondholders, shareholders and other creditors deposited their securities and claims with the Mercantile Trust Company of San Francisco and a plan was formulated under which the Company's property was sold through foreclosure proceedings on Dec. 22, 1914, and bought in by the Committee.

The Committee has organized the Natomas Company of California to take over all the properties of Natomas Consolidated of California which was organized under the laws of California Nov. 25, 1908, to consolidate the Natoma Land & Mining Co., Folsom Development Co., Feather River Development Co., Folsom Rock Co. and the Natoma Development Co., and to acquire various other interest for the purpose of extending its operations in the Sacramento Valley.

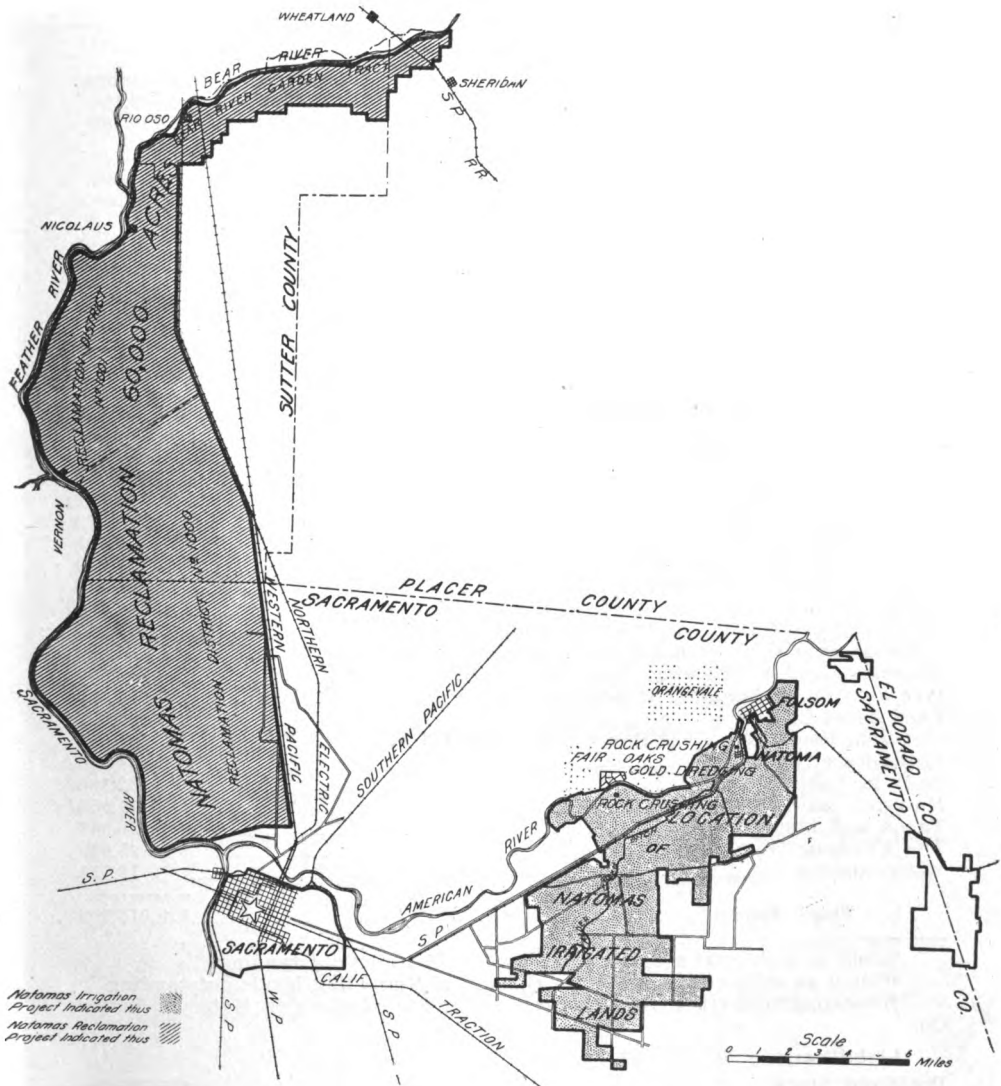

Natomas Company of California, having taken over the properties of Natomas Consolidated of California, is engaged in a number of industries, the principal of which is the development of its land holdings, comprising approximately 60,000 acres of reclamation land in Districts No. 1000 and 1001, lying immediately north of Sacramento and extending for 36 miles along the Sacramento, Feather and Bear Rivers. Owns approximately 20,000 acres of irrigable land in the American River District, beginning about 10 miles east of Sacramento and extending easterly to near the town of Folsom. Has developed water rights on the American River to the extent of 8,000 miner's inches, 3,000 of which are from the Natoma Canal at Salmon Falls from which point water is conducted by gravity to the Company's property through 18 miles of main canal, and 5,000 from the American River pumping plant near Alder Creek from whence it is conducted through a canal to the Company's property.

The Company owns and is operating 15 gold dredges on its dredging lands near Folsom on the American River and near Oroville on the Feather River. Another dredge is now in process of construction and is to be in operation before the close of 1916. Capacity of the dredges is 25,000,000 cu. yds. per year, with a gross output of about \$2,500,000. Also owns and operates a rock crushing plant at Fair Oaks Bridge, Sacramento Co., and one at Oroville, Butte Co., with a combined capacity of 3,000 tons of crushed rock per day.

The following work has been completed:

All of the levees surrounding Districts Nos. 1000 and 1001 enclosing approximately 85,320 acres, of which the Natomas Co. of Cal. owns 56,261 acres; levee system of District No. 1000 comprises 41.3 miles of levees and in District No. 1001, 55.1 miles of levees. 85 miles of ditches for interior drainage for District No. 1000 is partially completed; the completed drainage system for this district will require a total of 105 miles of main drains. Drainage pumping plants for both Districts consisting of 4 50-in. and 2 38-in. centrifugal pumps in District 1000 and 2 50-in. centrifugal pumps in District 1001, installed in reinforced concrete buildings. 15 deep wells have been sunk on the Company lands, several of which show strong artesian flow. All the wooden structures on the Natoma Canal have been replaced with steel flume and 2½ miles of canal concreted. Irrigation pumping plant on the American River near Alder Creek, consisting of 4 electrically driven 22-in. centrifugal pumps, is in operation. 9 miles of irrigating canals and 15 miles of laterals with gates, drops, etc., have been completed. About 6 miles of oil macadam roads have been constructed through the American River lands.

Practically all of the Company lands in Districts Nos. 1000 and 1001 have been rented for grain raising on crop share basis, also all of the lands owned by the Company east of Sacramento not used for experimental orchards. In addition, the Company has planted in young orchards and vineyards, 917 acres.

**OAKLAND, ANTIOCH AND EASTERN RAILWAY.  
San Francisco, Cal.**

Organized under the laws of California Mar. 27, 1911. Operates 115.82 miles electric railway between San Francisco and Sacramento. Owns practically all of the capital stock of the Oakland & Antioch Ry. which has built 34.12 miles of line between Bay Point and Oakland. Also owns the San Ramon Valley R. R. which has 8.74 miles of line from Saranap to Diablo, Cal.; also operates the Sacramento Valley Electric R. R. from Rio Junction to Dixon, a distance of 11.70 miles.

**Reorganization Plan**—The stockholders of the Oakland, Antioch & Eastern Ry. are being asked under an agreement to contribute \$3 a share in exchange for notes of the Company; these notes to be secured by bonds deposited with Union Trust Co., Trustee, at 80% of the face of the notes. If this plan becomes operative, the assessment payable January, 1915, will be rescinded, and all those signing the agreement will have the amounts they have paid in on the assessment applied towards the notes. Payments on the notes under the agreement are to be made as follows: Jan. 1, 1915, \$1 per share; July 1, 1915, \$1; Jan. 1, 1916, 50 cents; July 1, 1916, 50 cents.

An agreement for the deposit of coupons for 3 years for the bonds of the Oakland, Antioch & Eastern, Oakland & Antioch, and San Ramon Valley R. R. was offered by the bondholders' committee Mar. 12, 1915, by which holders of these bonds deposit the coupons for 1915, 1916 and 1917 with the Union Trust Co. The general intention of this agreement is that if the Railway Company finds itself unable, prior to Jan. 1, 1918, to pay the face of the coupons that the Railway Company, through the Trustee, will on Jan. 1, 1918, give each bondholder bonds of the Oakland, Antioch & Eastern at 80 for the face of the coupons so deposited.

Various provisions are included in the agreement by which the Railway Company may pay the coupons, if it finds itself in a position to do so, and a permanent committee of the bondholders is provided for as follows: L. S. Bachman, Philip Bancroft, F. H. Beaver, A. Christeson, C. Osgood Hooker, John Lawson, J. J. Mahony, Sidney M. van Wyck, Jr., who may terminate the agreement at any time when, in the judgment of two-thirds of the members of the committee, it seems advisable. If the agreement is so terminated, the bondholders may return their receipts to the Trustee and receive their coupons. It is provided that the Railway Company shall pay interest at the rate of 6% per annum on the coupons so deposited.

**PEOPLES WATER COMPANY.****Oakland, Cal.****Refunding Committee.**

In January, 1914, the Peoples Water Co. appointed P. E. Bowles, John S. Drum and W. W. Garthwaite to suggest a plan for the refinancing of that company. On June 26, 1914, the committee made a report to the bondholders of the Contra Costa Water Co., Oakland Water Co., Alameda Artesian Water Co., East Shore Water Co. (constituting the underlying bondholders), and to the bondholders and noteholders of Peoples Water Co., stating that they had recommended the directors to default on the July, 1914, interest coupons and suggesting that the holders of the various bond issues appoint a protective committee to meet with the Refunding Committee for the protection of their interests.

As a result various protective committees were appointed by the bondholders and these committees appointed the following Reorganization Committee: P. E. Bowles, J. F. Carlston, John S. Drum, W. W. This Committee has formulated the following plan for reorganization which has been approved by the Railroad Commission and assented to by the owners of about 97% of the bonds of the Peoples Water Co. and underlying issues:

Preferred 6% Cumulative Stock, \$100.....	6,000,000

The bonds to be dated Jan. 1, 1916, and to bear interest at 5½% per annum payable semi-annually Jan.-July 1 will mature Jan. 1, 1946. For the first five years these bonds will be callable at par and thereafter at 105. Commencing Jan. 1, 1921, and annually for five years an amount equal to 1% of outstanding bonds shall be paid to Trustee for Sinking Fund, and thereafter 1¼% shall be paid annually. The issue will be a First Mortgage on all property owned by the Company or hereafter acquired. It is proposed to distribute these securities as follows.

**SAN FRANCISCO-OAKLAND TERMINAL RAILWAYS.****"Key System."****Oakland, Cal.**

Electric trolley street and interurban railways.

Incorporated in California Mar. 21, 1912, and is a consolidation of Oakland Traction Co., San Francisco, Oakland and San Jose Consolidated Railway, East Shore and Suburban Railway Co., and California Railway.

Operates 258.72 miles of track, comprising street and interurban railway lines of Oakland, Berkeley, Richmond, Emeryville, Alameda, San Leandro and Hayward, and five ferry boats between San Francisco and Pier-head, Oakland, connecting with its own electric trains.

Oakland Traction Company was a consolidation of Oakland Traction Consolidated with Berkeley Traction Company. Oakland Traction Consolidated was consolidation of Oakland Transit Consolidated and Webster Street & Park Railway. Oakland Transit Consolidated was consolidation of Oakland Transit and Oakland, San Leandro and Haywards Electric Railway Consolidated. Oakland Transit was a consolidation of Oakland Transit Company and Oakland R. R. Company. Oakland Transit Co. was a consolidation of Oakland Consolidated Street Railway Co., Alameda, Oakland & Piedmont Electric Railway Co., and Central Avenue Railway Co.

San Francisco, Oakland and San Jose Consolidated Railway, "Key Route," was consolidation of the San Francisco, Oakland and San Jose Railway and the San Francisco and Bay Counties Railway.

The Company owns and operates all the street railway facilities on the east shore of San Francisco Bay, with the exception of certain suburban lines of the Southern Pacific Co. formerly operated by steam but which have recently been electrified, and now compete principally for the Oakland-San Francisco business.

Owns all the stock of Oakland Terminal Co. and Key System Service Co.

For map of property, see insert.

**Financial Status**—In May, 1913, control of this Company and various affiliated enterprises passed into the hands of the so-called F. M. Smith Advisory Committee, composed of Frank B. Anderson, John S. Drum, Mortimer Fleishacker, W. W. Garthwaite, and C. O. G. Miller.

On May 27, 1915, the Directors of the San Francisco-Oakland Terminal Railways issued to security holders a printed statement setting forth the financial condition of the Company and concluding with the statement of five conditions, which, in the opinion of the Board, necessitated a readjustment or reorganization of the financial structure of the Company. These conditions were:

(1) Excessive Sinking Fund requirements of existing bond issues which it is impossible for the Company to meet out of earnings.

(2) The Company's inability to raise money for necessary capital expenditures under its existing financial structure.

(3) The existence of extensive overdue obligations for which the Company was responsible, including \$2,500,000 Oakland Railway Notes and \$1,100,000 Oakland Terminal Notes.

(4) The early maturity of \$1,121,000 Oakland Transit Co. First Mortgage 6's due July 7, 1918, the payment of which must be provided for.

(5) The restriction of the Company's credit due to its financial condition, hampering economical operation.

Following the publication of this letter, a Committee was organized representing practically all classes of securities to formulate a plan of reorganization for the Company. This Committee consisted of Frank B. Anderson, Geo. A. Batchelder, J. F. Carlston, Benjamin H. Dibblee, John S. Drum, Mortimer Fleishacker, W. W. Garthwaite, E. J. McCutchen, John D. McKee, Percy T. Morgan, A. F. Morrison, G. K. Weeks.

Under date of May 16, 1916, this Committee submitted to security holders a report of their findings as to the value of the Company's property, its obligations and earnings, stating that a tentative plan of reorganization had been drawn up for presentation to security holders, but that after mature deliberation, the Committee had concluded that no plan could be offered with a reasonable probability of success until new capital could be obtained for refunding, rehabilitation and necessary betterments, and that such capital could not be obtained until there had been a change in the Company's fundamental situation with regard to franchise conditions, taxation and automobile competition. It is understood that the Committee favors a resettlement franchise, indeterminate in character, based on the valuation of the Company's property with an assurance to the owners of the property of reimbursement of this agreed value in the event of the franchise being terminated or "recaptured" in favor of public ownership.

The Committee recommends that the Company continue to pay interest on its bonds as soon after the same becomes payable as it is possible for the Company to accumulate funds out of net earnings for that purpose.

#### Expiration of Franchises.

On May 22, 1916, it was authorized by the Railroad Commission of the State of California to purchase a number of gas properties of the Southern California Edison Co. and also the Long Beach Consolidated Gas Co., and was granted permission to issue \$2,500,000 5½% First Mortgage 20-Year Sinking Fund Gold bonds and \$660,000 of 6% Cumulative Preferred stock to retire all outstanding bonds, purchase properties and reimburse the Company for amounts it had expended in permanent additions and extensions to its system.

The Company owns and operates, without competition, the gas manufacturing and distributing systems in and between more than 36 cities and towns in Los Angeles, Orange and San Bernardino Counties, the business field comprising practically all the important suburban territory within 35 miles of Los Angeles, excepting Pasadena and Redondo. **Receivership**—On Mar. 1, 1915, the Western Pacific Railway defaulted in the payment of the interest then due on its First Mortgage bonds and the Denver & Rio Grande R. R. Co. failed to perform its obligations with respect thereto. Shortly thereafter The Equitable Trust Co. of New York, as substituted Trustee under the mortgage securing Western Pacific First Mortgage bonds, commenced proceedings for the foreclosure of the First Mortgage in the United States District Court for the Northern District of California, and Frank G. Drum and Warren Olney, Jr., were appointed Receivers of the Western Pacific Ry. On Sept. 1, 1915, default again occurred in the payment of the interest which on that day became due upon Western Pacific First Mortgage bonds. Another like default occurred Mar. 1, 1916. The principal of the \$50,000,000 of bonds has been declared due and payable forthwith. The total amount of interest due on these bonds and unpaid Mar. 1, 1916, was \$3,750,000.

A Committee, representing severally a large amount of bonds, was formed for the protection of the interests of the bondholders. The personnel of this Committee is as follows: Alvin W. Krech, Chairman; C. Ledyard Blair, I. De Bruyn, Frederick H. Ecker, David R. Forgan, A. M. Hunt, James D. Phelan, Starr J. Murphy, William A. Read, William Salomon, George Whittell, Richard B. Young. This Committee called for the deposit of bonds, and a large majority of bonds were deposited.

On Dec. 15, 1915, the Committee submitted a plan of reorganization to the bondholders, which contemplates the incorporation of a California Operating Company to purchase the road at foreclosure sale for the bondholders, all the stock of which will be owned by an Eastern Holding Company; the present Western Pacific bondholders to receive \$500 Preferred and \$750 Common stock in the Holding Company in exchange for each \$1,000 bond; the new Operating Company to have an authorized issue of \$50,000,000 First Mortgage bonds, \$20,000,000 of which are to be sold immediately to provide funds for improvements, extensions and equipment. The owners of approximately \$44,000,000 bonds have approved the plan.

Application has been made to the United States District Court of the Northern District of California for an order for foreclosure and sale. At the date of writing (May 17, 1916) hearings are being held for the fixing of an upset sale price.

### GREAT WESTERN POWER COMPANY.

Controlled by Great Western Power Co. of California.

Organized under the laws of California Sept. 18, 1906. Owns the following properties:

**Reservoir**—Big Meadows reservoir, located in Plumas County in the Sierra Nevada Mts. at an elevation of approximately 4,400 ft. on land owned in fee simple, covers an area of approximately 20,000 acres and has a storage capacity of some 250,000 acre ft. as at present developed. Future development at comparatively small cost will multiply the storage capacity two or three more times, as desired. The massive hydraulic fill type dam with rock toes and faces has at present been built to a total height of 80 ft. only, bringing the elevation of the reservoir to about 4,450 ft. Practically all acreage needed to increase storage to ultimate capacity is owned by the Company. Large acreage is also owned in Butt Valley near Big Meadows, which includes properties possible of development into a valuable water power project at small cost per unit.

**Generating Stations**—Water power electric generating plant on North Fork of Feather River in Butte Co., Cal., including solid reinforced concrete diversion dam, solid reinforced concrete intake power provided with necessary regulating gates, etc., concrete lined tunnel 16 ft. in diameter and approximately 3½ miles in length with 16-foot outlet pipe to supply 5-foot penstock pipes to power house

and also to regulate pressure. Steel frame concrete structure throughout power house in which are installed 4 10,000-K. W. and 2 12,500-K. W. capacity most modern generators, giving an 87,000 H. P. total capacity, together with necessary exciters and transformers capacity to deliver entire capacity to outgoing transmission lines.

**Transmission System**—Two 3-phase circuits operating at 100,000 volts extend on steel towers from Big Bend Plant 154 miles to Oakland, passing through the most prosperous and well populated sections of the Sacramento Valley and the territory adjoining the Bay district. Steel frame concrete throughout substation structures containing suitable equipment step down the 100,000 volts at Brighton, Isleton, Antioch, Clayton, Cowell and Oakland Terminal substations for distribution to their respective surrounding territories. Suitable sectionalizing stations are installed at various points. Some are steel frame concrete throughout structures.

**Distribution System**—Steel frame concrete throughout substation structures at Sacramento, Oakland, Napa, Santa Rosa and Petaluma, together with less pretentious but substantial similar structures, receive energy from the tower transmission line substations and in turn step it down into the lower voltages for some 1,450 miles of underground and overhead circuits serving consumers. Three submarine cables, each four lines in length, are operated under San Francisco Bay between Oakland and San Francisco at 11,000 volts, thus supplying full capacity of low cost hydro-electric power at all points served by the Great Western Power System.

**Undeveloped**—The Company owns in fee simple practically all land and rights necessary to make an ultimate development of upwards of 600,000 H. P. additional on the North Fork of the Feather River in California, all in conjunction with the present reservoir. The Big Bend plant can be increased to a 110,000 H. P. installation by the addition of two more generating units, for the plant as now built provides for them.

### San Francisco, Cal.

Organized under the laws of California Feb. 17, 1910. The Company owns nearly 10,000 acres of land, subject to a balance of approximately \$410,000 due in installments against the original purchase price of approximately \$2,000,000. lying opposite the city of Sacramento and connected with it at Capitol Ave. or "M" St., by a joint railroad and highway bridge. The lands are bounded on the north by the Southern Pacific Main Line track; on the east and southeast by the Sacramento River, with a water frontage of about 7 miles. The river frontage and the south and west boundaries of the property are protected by massive levees which in the heavy winter of 1913-1914 successfully protected the property against the winter's floods. Lands are being highly developed for agricultural purposes, and particularly including a City Sub-Division, opposite the city of Sacramento, the first unit of which, containing 240 acres, has already been placed on the market. Besides river transportation along its entire frontage, property is served by 3 lines of railroad, namely, Southern Pacific Co., Sacramento & Woodland R. R. Co., and Oakland, Antioch & Eastern Ry. ## THE GENERAL PETROLEUM COMPANY.

Los Angeles, Cal.

The reorganization of this Company is being carried out under the plan dated Feb. 14, 1916, adopted by the Protective Committee of Depositing Bondholders under deposit agreement dated July 2, 1915, and the Protective Committee of Depositing Interim Deposit Certificates of Bonds under deposit agreement dated July 3, 1915.

The following constitute the protective committee under both agreements: Frank B. Anderson, Herbert E. Clayburgh, Mark L. Gerstle, Joseph D. Grant, Phillip I. Manson, John D. McKee, Maxwell McNutt, Percy T. Morgan, Richard E. Mulcahy. The Mercantile Trust Company of San Francisco is the Depositary.

Foreclosure proceedings have been instituted under Deed of Trust securing the First Mortgage bonds dated Nov. 1, 1911, from the General Petroleum Co. to Mercantile Trust Company, and the property of the General Petroleum Co. will be sold on June 28, 1916.

After foreclosure it is proposed to organize a successor corporation under the laws of California with eleven resident directors and the following capitalization:

(a) \$3,212,160 7% *Cumulative Pref. Stock to Retire*, \$ for \$, 3-Yr. 6% *Notes*.

The cumulative pref. shares are limited to dividends of 7% per annum, but are preferred both as to dividends and assets (par value \$100). Redeemable at par plus divs. Limited to \$3,212,160, being the aggregate face value (with interest accrued to Dec. 1, 1915) of General Petroleum Co.'s outstanding 3-year 6% collateral trust gold notes, which are secured by pledge of \$6,000,000 of its 1st M. bonds. The pref. shares are to be issued fully paid and non-assessable in exchange for said collateral trust notes at par and for said \$6,000,000 bonds now held as security therefor.

(b) \$13,490,176 *Common Stock to Be Exchanged for Like Amt. of 1st M. Bonds*.

The common shares are of the par value of \$100 each, limited in amount to \$13,490,176; which sum represents the face value (with unpaid interest to Nov. 1, 1915) of the outstanding 1st M. bonds of General Petroleum Co. secured by its mortgage dated Nov. 1, 1911, exclusive of said bonds held as collateral security for said three-year notes, and also exclusive of all bonds in the treasury of General Petroleum Co., said common stock to be issued fully paid in exchange for said outstanding 1st M. bonds at par.

(c) *New First Mgt. 6% Bonds, Estimated Not to Exceed \$1,500,000.*

The new first mortgage 10-year 6% coupon bonds will be callable at par on any. int. date, and secured by a mortgage to Mercantile Trust Co. of San Francisco, as trustee, as a first lien upon the entire property. Principal and semi-annual interest payable in San Francisco and New York. To be authorized and issued only to pay therewith at par the net balance of accounts, when ascertained, due by General Petroleum Co. to Andrew Weir, Andrew Weir & Co., General Petroleum Co., Ltd., Western Ocean Syndicate, and Houlder, Weir & Boyd, Inc., to be determined in accordance with the agreement dated Jan. 22, 1916, for full settlement of all claims between the company and said creditors. This net balance is estimated not to exceed in any event \$1,500,000.

All the \$64,000 outstanding 6% bonds dated May 1, 1910, and issued by General Petroleum Co. under its original name of Esperanza Consolidated Oil, and any other lien on lands prior to the General Mortgage dated Nov. 1, 1911, be fully paid from money now in the treasury.

All holders of the interim deposit certificates of bonds of General Petroleum Co. shall receive in their own names all shares of common stock of the new company issuable in exchange for the bonds of General Petroleum Co., originally exchanged by such holders for shares of General Petroleum Co., Ltd., or deposited by them for such exchange, upon their release of all claim to such shares of General Petroleum Co., Ltd.

*General Pipe Line Co. \$4,500,000 6% Bonds of 1912 To Be Made a Closed Issue and Secured by Second Mortgage on All Property of the New Company, Which Will Own Control—\$200,000 Note.*

The General Pipe Line Co. of California owns and operates a pipe line for transmission of oil from the Midway Field in Kern County to Los Angeles, with branches to Mojave and Lost Hills. The total cost of construction exceeds \$4,800,000, and the pipe line is a desirable outlet for the new company's oil. This pipe line is subject to a mortgage to the Columbia Trust Co. (formerly Knickerbocker Trust Co.), dated Jan. 1, 1912, securing \$4,500,000 outstanding 6% bonds, of which bonds General Petroleum Co. owns \$500,000. The total issue of bonds authorized by the mortgage is \$7,500,000, maturing Jan. 1, 1925, and has an annual sinking fund payment of \$337,500; of which the payments due in 1914 and 1915 are now in default. The entire capital stock of General Pipe Line Co. of California is owned by General Pipe Line Corporation, incorporated in Maine, and the capital stock of said Maine corporation consists of \$5,500,000 of common stock, all owned by General Petroleum Co., and \$2,000,000 of 8% pref. stock now held by outsiders. The General Petroleum Co. has guaranteed the payment of the sinking fund installments and the principal and interest of the pipe line bonds, and has also guaranteed the 8% dividends on said preferred stock of the Maine corporation until 1925.

The committees have now made satisfactory arrangements, subject to the approval of the depositors, for the new company to purchase all said pref. stock of the Maine corporation, including all claims for unpaid dividends thereon, and to procure a waiver of existing defaults on the pipe line mortgage, and a waiver of sinking fund payments thereon for the years 1914, 1915 and 1916, in exchange for:

(a) Supplemental second mortgage by the new company to the Columbia Trust Co., mortgaging all property of the new company (except the \$500,000 bonds of General Pipe Line Co. of California) to secure payment of said \$4,500,000 outstanding pipe line bonds, and to secure performance of all other covenants of the original pipe line mortgage securing the same; (b) a waiver of the right to issue the remaining bonds authorized by the pipe line mortgage, thus closing the mortgage at \$4,500,000; (c) the promissory note of the new company for \$200,000, payable in three equal annual installments, with interest at 6% per annum, payable yearly.

This purchase, if consummated, will make the new company sole owner of the pipe line, and will eliminate from its fixed charges \$160,000 per annum, now payable as dividends on said pref. pipe line stock, and constitutes part of this plan.

The General Petroleum Co., organized under the laws of California Mar. 30, 1910, to purchase, lease, and develop oil lands, to construct and operate pipe lines, and to build and operate refineries and ships. Succeeded the Esperanza Cons. Oil Co.

The holdings of the Company may be briefly segregated as follows:

About 23,644 acres in the various California oil fields, operated or controlled, on which are 225 producing oil wells yielding at the rate of about 4,000,000 bbls. per annum; 2 wells are being drilled and 5 others being rigged for drilling.

Approximately 24,500 acres in the various oil fields of Mexico and 310 acres of deep water harbor frontage at Tampico.

73% (5,500,000 shares) of the capital stock of the General Pipe Line Co. of California, which has now in operation an 8-inch pipe line for transporting oil from the San Joaquin Valley fields, a distance of 188 miles to tide-water at Los Angeles, and a branch from this line 52 miles long to Mojave junction of the Santa Fé and Southern Pacific railways.

The combined steel tankage of the General Petroleum Co. and the General Pipe Line Co. of California is 2,900,000 bbls., and a 500,000 bbl. concrete lined reservoir at the tidewater terminal.

Contracts with other producers running for periods of 1 year, make delivery to the General Petroleum Co. at the rate of over 2,500,000 bbls. per annum, and there is besides a contract extending over a period of 1 year with the Atchison, Topeka & Santa Fé Ry. Co. by which there is to be received 2,600,000 bbls. per annum of crude oil in the fields.

The Company has sales contracts upon which deliveries of about 12,000,000 bbls. per annum (estimated—varying with the needs of purchasers) are being made, including the fuel requirements of the Atchison, Topeka & Santa Fe Ry. Co.

Two wharves for loading ships with oil are located in deep water of Los Angeles Harbor. A boat loading and train loading station has been established at Seattle Harbor.

The Company owns two tankers, capacity 44,000 bbls. and has in charter 2 new tank steamers of aggregate carrying capacity of 140,000 bbls. One refinery at Los Angeles with handling capacity of not less than 20,000 bbls. daily and having ample car-loading facilities.

Owns \$6,248,175 or 98.6% of the stock of the Mexican Petroleum Co. of Cal. and all the outstanding stock of the following companies, except directors' shares: Huasteca Petroleum Co., \$14,680,600; Tamihua Petroleum Co., \$1,000,000; Tuxpam Petroleum Co., \$1,000,000. These companies own or control about 600,000 acres, or nearly 1,000 square miles of land, of which about 75% is owned in fee and the balance held under leases extending in most cases for about twenty-five years, and having an aggregate rental of less than \$20,000 per annum, without any royalties or other percentages of production to be paid the lessors. These properties are divided geographically into two groups, the first owned by the Mexican Petroleum Co. of Cal., commencing about fifteen miles west of Tampico and extending to a point about fifty miles west of Tampico, and comprising all told about 450,000 acres, which have produced about 16,000,000 bbls. of oil in the past seven years, extending along each side of the National Railways of Mexico. The second group is owned or controlled by the other three companies and comprises about 150,000 acres, the Northernmost oil property commencing at a point about 45 miles south of Tampico and the most Southerly oil property extending to a point about 125 miles south of Tampico, for the most part within twenty miles of the Gulf of Mexico.

Approximately \$7,500,000 in cash has been expended in improving these properties. The principal developments may be summarized as follows:

29 completed oil wells with a present aggregate producing capacity of about 330,000 bbls. per day.

36 kilometers of railroad lines;

318 kilometers of eight-inch pipe line (consisting of 3 parallel lines of 106 kilometers each) with a total capacity of 60,000 bbls. of oil per day;
